Subject: Bitterly Disappointed with Proposed MS Settlement

I understand that this is the address to which I may address comments to the DOJ on the proposed settlement agreement.

I am very disappointed and strongly opposed to the proposed settlement. I firmly believe that the only way to ensure fair competition is to separate the applications and operating systems divisions of Microsoft. Any thing less will, I am convinced, not work, especially in light of Microsoft's past performance.

Additionally, I feel that Microsoft is not being appropriately penalized for it's past behavior.

As a consumer, I feel that I have been sold out by the DOJ. I am very disappointed.
